

Halo Cranial Prosthetics is a nurse-led cranial prosthesis practice based in Nashville and serving patients throughout the surrounding area. It was founded by Tiffany Johnson, RN, MSPH, a Certified Cranial Prosthesis Specialist and breast cancer survivor. We partner with oncology, dermatology, rheumatology and primary care teams to fit patients with medical-grade hair prostheses and provide the documentation they need for insurance and HSA/FSA claims. To support coverage, please write "cranial prosthesis" rather than "wig."
