

PLANNING AHEAD

The best time to call is *before* you need us.

When we meet before treatment begins, we can see and match your natural color, texture, density and part. If hair loss has already started, we are just as ready to help.

What to bring

- ☐ A prescription for a “cranial prosthesis” from your physician, if using insurance
- ☐ Your insurance card and any HSA or FSA details
- ☐ Recent photos of your hair, if you have them
- ☐ Any wigs, toppers or head coverings you already own

Questions for your insurer

- ☐ Does my plan cover a cranial prosthesis (HCPCS A9282)?
- ☐ Is a prescription or prior authorization required?
- ☐ Is there a dollar limit or a limit on how often?
- ☐ How do I file for reimbursement?

Come as you are

Your consultation is private, unhurried and free of judgment. You are welcome to bring a family member or friend.

CRANIAL PROSTHETICS

Nurse-led medical hair restoration

Restoring how you *see yourself.*

Custom cranial prostheses, fitted with clinical care and genuine compassion.

Insurance coverage varies by plan. Halo provides documentation to support your claim but cannot guarantee reimbursement.

CARE THAT BEGINS WITH
UNDERSTANDING

A nurse's eye. A specialist's hands.

Halo Cranial Prosthetics was founded by Tiffany Johnson, a registered nurse with a master's degree in public health and certification as a Cranial Prosthesis Specialist. As a breast cancer survivor who lost her hair during treatment, she brings both clinical knowledge and lived experience to every fitting.

RN	REGISTERED NURSE
MSPH	MASTER OF SCIENCE IN PUBLIC HEALTH
Certified	CRANIAL PROSTHESIS SPECIALIST

"I lost my hair during my own breast cancer treatment. I know how much it matters to look in the mirror and recognize yourself."

TIFFANY JOHNSON, RN, MSPH

YOUR PATH WITH US

Four steps, *at your pace.*

01 Private consultation

We talk through your diagnosis, treatment plan and goals, assess your scalp and take precise measurements.

02 Thoughtful selection

Together we choose the cap, fiber, color and style that fit your life, budget and comfort.

03 Fitting and styling

Your prosthesis is customized, cut and styled for a secure fit and a natural-looking hairline.

04 Ongoing care

Scalp-care guidance, adjustments and maintenance through treatment, regrowth and beyond.

WHO WE SERVE

- Chemotherapy
- Radiation
- Alopecia areata
- Alopecia totalis
- Alopecia universalis
- Trichotillomania
- Lupus and autoimmune
- Thyroid and hormonal
- Female pattern thinning
- Burns and scarring

Options for every need

Human hair

The most natural movement and styling flexibility, for long-term wear.

Synthetic

Lightweight, low-maintenance and style-retaining, ideal during treatment.

Medical-grade caps

Soft, breathable bases designed for sensitive or fully bare scalps.

Insurance made simpler

Many plans cover a cranial prosthesis with a prescription, and many HSA and FSA accounts may be used. We provide an itemized receipt, product description and billing code, and guide you through filing.
